Redesigning your bathroom doesn't have to be a nightmare. There are some very good products and services on the market to help bring the most relaxing room in the house to life. Creating an oasis of calm after a long day at work isn't a lot to ask and Elysian ([www.elysianlifestyle.com](http://www.elysianlifestyle.com)), together with a few well known companies, are here to make your life easier.

Zest Bathrooms are a fantastic company who have been pioneering the way forward for the last twenty years, creating a luxurious and tranquil space for their clients. Their expertise and passion have made them excel in what they do, and what they achieve;

offering a bespoke service that is personal and complimentary to the client and décor of their abode. They offer products from many different suppliers all over the world but my personal favourite is the Antonio Lupi range. The bath I have chosen to feature opposite is sophisticated in design and a spectacle to the eye. It definitely helps to create the 'wow' factor that would be perfect for any open space.

Accessories are just as important to complete a room, and UK based company Porta Romana is known for creating bespoke pieces to achieve the desired style. The Mussell Shell bathroom wall light is an

example of the quality and expertise that has gone into every product designed for their company. Directors Andrew and Sarah Hill collaborate with some of the world's leading artisans making sure that each product is unique and carefully crafted. A Porta Romana product is created for the person who loves to go beyond what is fashionable and dares to be different.

Fantastic customer service and quality products is what I have come to expect from About Stone. They have worked on some of the finest properties and projects worldwide. Director Vic Ferguson has gathered many years of experience and knows a thing or two when choosing mosaic tiles, and is always on hand to offer 'help and advice' on making important decisions from the many different types of stone available at his Ilkley-based showroom. The company's portfolio has been carefully sourced and brought together to offer a full range of products to their customers. Take a look at the 'King Pebble' by the Island Stone Company for something uniquely stylish, and for the 'wow factor' the 'Adatto Casa couture' range is the perfect choice. You will certainly have more visitors to than usual to your home... even if it is to see your bathroom!

**Elysian specialises in interior design and makes choosing items for your home easier and stress free. For more information on the above products and Elysian services, contact Dipika Makwana on [elysianlifestyle@googlemail.com](mailto:elysianlifestyle@googlemail.com) or 07960 794533**
